2 OUR APPROACH

**Our special competence stems from a unique team.
Our interdisciplinary team spans four focuses of expertise, providing an ideal foundation on which to evolve optimum solutions for your diverse real-estate issues.**

BNP Paribas Real Estate has been providing consultancy services throughout Germany since 1987, and currently employs a staff of some 100 in this field. Interdisciplinary teams in the business areas of Strategic Advice, Valuation, Buy-Side Advice, Development Advisory, Research and Digital Property Documentation collaborate from the beginning of every project. Our staff cover a broad range of core competencies, generating diverse synergies to produce practicable results tailored to individual requirements. In order to exploit these benefits, consulting and valuation services have always been integrated at our company. It goes without saying that sensitive data pertaining to the respective areas of business are strictly separated. Compliance and the [Code of Conduct](#) provide the foundations for our corporate policy and our values-based business practice. Draw on these synergies for your own success.
